**THE ADVANTAGE**

The integrated lanyard attachment point works with any multi-action carabiner

2-stage carabiner for a secure hold yet can be un-hooked from attachment point to charge battery

The integrated lanyard strap has a lanyard that secures the battery to the tool

A PERFORM & PROTECT™™ FEATURE

DEWALT® LANYARD READY™ integrated solutions offer options to tether select corded and cordless tools to rigid structures on jobsites when working at height with a maximum lanyard length of 2m helping to secure the tool in case it is dropped.

Any permanent stretch to the attachment point exposing the red internal coils indicates it has been compromised and must be serviced prior to reuse.
